<p>The economy is stagnant. The best way to get it roaring again is by reducing taxes and slashing regulations.</p> <p>Radical Islam is the most dangerous threat we face. Groups like ISIS and Al Qaeda should be wiped out.</p> <p>Iran is the biggest state sponsor of terror in the world. We must prevent them from acquiring nuclear weapons because Iran promises to use them against the US and Israel. We should not have released any frozen assets, which should have been used to help Iran's victims.</p> <p>The Constitution is the foundation of law in the United States. It needs to be respected and the judges that are appointed need to adhere to it.</p> <p>Repeal Obamacare because it failed. The promise was that insurance rates would drop and you could keep your doctor. Instead, rates have skyrocketed and millions of people lost their doctors.</p> <p>America needs to control its borders to protect the economy and shield itself from enemies. Immigration needs to be happen in a manner that allows time for assimilation.</p> <p>Life is precious and sacred and should not be taken away unless under the most extreme circumstances.</p>	<p>The government is the economy. We should increase taxes and increase regulations.</p> <p>The war on terror was won when Osama Bin Laden was killed. Jihad attacks at home and abroad are discounted ignored because it makes it seem like we haven't won.</p> <p>The United States should not have frozen Iran's assets merely because they took over our embassy and held American's hostage for over a year. We gave them the money to gain their trust. They no longer hate us and only call us "The Great Satan" to appease Islamic fundamentalists.</p> <p>The Constitution is old and irrelevant to the day and age we live in. Judges need to make decisions based on the outcome they wish to achieve.</p> <p>Obamacare did not go far enough. If the government completely takes over medicine and insurance, like in Canada, the problem would be solved.</p> <p>Efforts to control the United States' borders are mean and selfish. Anybody should be able to come to our country at any time and receive social services, housing, driver's license, and be able to vote.</p> <p>Abortion is a right and any woman of any age should be able to abort their child all the way up to the moment of birth.</p>	<p>President Donald Trump Hillary Clinton</p> <p>US Senator Chris Vance Patty Murray</p> <p>US Representative, 2nd District Mark Hennemann Rick Larsen</p> <p>Governor Bill Bryant Jay Inslee</p> <p>Lt.
